

603 LifeBoat Repair Kit

The Resimac Lifeboat repair kit provides long term waterproof repairs to GRP/ glass fibre surfaces. The strong and versatile epoxy resin system gives excellent mechanical adhesion even on surfaces with minimal surface preparation.

The kit contains all the accessories needed to perform repairs to hairline fractures, cracks & holes. The 603 LifeBoat Repair kit is capable of performing up to 2 resurfacing or rebuilding repairs to GRP/ glass fibre surfaces.

Features of the product include-

- Solvent free—no odour
- Excellent mechanical adhesion to GRP/ glass fibre surfaces
- All accessories included in the kit
- Rebuild worn GRP/ glass fibre surfaces
- Repair cracked surfaces
- Sandable within 4 hours

Benefits to the user include-

- Cost effective solution
- Long term protection of GRP/ glass fibre surfaces
- Simple and easy to use
- Minimal surface preparation required
- Proven track record in the marine industry
- Long term waterproofing solution
