

## Resichem 550 WR Membrane

Resichem 550 WR Membrane is a water based acrylic membrane designed to give long term flexible waterproof protection to roofs, gutters, tank bases, tank roofs and GRP structures. The coating can be applied to a wide range of surfaces including mineral felt, concrete, GRP, metal and cement based sheeting. Once cured it will give a seamless, UV stable, flexible finish to any roof surface.

### Features of the product include

High build capability in a single coat  
Excellent flexibility and elongation  
Versatile application, brush, roller or spray

### Benefits to the user include –

Cost effective solution  
Long term waterproofing protection  
10-15 years protection on roof surfaces

### Typical Applications include –

Wide range of roof surfaces, gutters, tank bases, tank roofs, GRP Structures

3000m<sup>2</sup> flat concrete roof coated with 2 x coats of 550 WR Membrane

Tank base primed with 506 Aluprime and coated with 550 WR Membrane and Flextech reinforcement sheet

2000m<sup>2</sup> corrugated metal roof coated with 2 x coats of 550 WR Membrane
