

Resichem 551 ER Membrane

Resichem 551 ER Membrane is a solvent based fibrous acrylic coating designed for application onto manual prepared surfaces and in colder climates.

The coating has been designed as an emergency waterproof coating that can be applied to leaking mineral felt, GRP, Metal and concrete surfaces. The product can be used for small in-situ repairs or as a low cost short term waterproofing system for roof and gutter surfaces.

Features of the product include –

- High build capability in a single coat
- Excellent flexibility and elongation
- Versatile application, brush or squeegee
- Cures at low temperature (5°C)
- Shower proof in 15 minutes

Benefits to the user include –

- All year round application
- Seal through ponded water
- Reduced downtime of production areas

Typical Applications include –

- Leaking gutters and roofs, GRP structures

Over 600 linear meters of GRP valley gutter sealed with 551 ER Membrane

Leaking seams on a mineral felt roof sealed using 551 ER Membrane
