

Resichem 503 SPEP

Low viscosity primer for sealing concrete surfaces

a two component solvent free low viscosity epoxy primer designed to seal porous surfaces. The coating can be applied to cementitious surfaces with a moisture content of 8% or less.

- Solvent free epoxy technology
- Low viscosity penetrating primer
- Apply by brush, roller or standard airless spray
- Consolidates and seals porous surfaces
- Improves adhesion of epoxy or PU top coats
- Tolerant of less than ideal surface preparation
- Cures at low temperatures (5°C)
- Fast cure and extended working life grades available

Concrete surface primed using Resichem 503 SPEP prior to application of Resichem 501 CRSG

Concrete surface on a chemical containment area was mechanically abraded and sealed with Resichem 503 SPEP prior to being over coated with Resichem 501 CRSG
